PROFILE

Senior Front-End Developer with **7+ years of experience** building high-performance, visually polished web applications for remote teams in the **US and Saudi Arabia**. Expert in **React, Next.js and TypeScript**, with a specialty in motion design (**GSAP, Framer Motion**) and pixel-perfect implementation of complex Figma designs — from cinematic marketing sites to large, fully tested product platforms.

FEATURED PROJECT

PitchIQ SOLO BUILD · LIVE

🌐 pitchiq-pl.vercel.app 🐙 github.com/AliEmad0/pitchiq

Premier League encyclopedia — 34 seasons of standings, fixtures, players, managers & head-to-head comparison.

- Built end-to-end with **Next.js 15 (App Router)**, **TypeScript** and **Tailwind CSS v4** — 1,700+ statically generated pages, interactive historical map, player-comparison radar and a global ⌘K search.
- Engineered an **automated daily data pipeline** (GitHub Actions cron → validated JSON snapshots → auto-PR) with Zod schema validation and stable cross-season entity identity.
- Full internationalization: **English + Arabic with complete RTL**, localized data and Eastern-Arabic numerals; era-based theming re-skins the whole UI per decade.
- Quality-first delivery: **1,600+ Vitest unit tests + Playwright E2E**, CI/CD on GitHub Actions, deployed on Vercel with Sentry monitoring — all motion gated on *prefers-reduced-motion*.

EXPERIENCE

Senior Front-End Developer TechBridge Labs — USA · Remote

Nov 2024 – Present

- Architecting complex, high-traffic web platforms with **Next.js** and **TypeScript**.
- Partnering with design teams in Figma to guarantee high-fidelity UI implementation.
- **Key projects:** Streamingbots, FeedBQ, Dubbinghub, Streaminal — scalable front-end architectures with heavy performance optimization.

■ EXPERIENCE — CONTINUED

○ Front-End Developer

Mar 2019 – Dec 2024

Syft — USA · Remote

- Spearheaded front-end development across a diverse portfolio of **Web3, e-commerce and gaming** products.
- Implemented advanced animations and cinematic transitions that measurably lifted user engagement.
- Consistently delivered pixel-perfect components from Figma prototypes across browsers and devices.

KEY PROJECTS

- **Syft.la** — React + GraphQL platform.
- **Mynt.la · Syft.gg** — high-performance sites with Next.js, TypeScript and Tailwind.
- **1-UP · Basc-Wrld · Refuge.gg · Meenda** — high-end web animation showcases built on GSAP.
- **Brokeboyz · Solygons · Astrobotz · FlexNFT** — interactive UI with Chakra UI and Framer Motion.

○ Front-End Developer (part-time)

Dec 2022 – Feb 2023

Smartive Media — Saudi Arabia · Remote

- Led front-end development of the **Artisan** platform, expanding its footprint with numerous high-fidelity pages.
- Crafted cinematic **GSAP** animations for an engaging, fluid user journey.
- Shipped pixel-perfect, complex layouts with cross-browser stability and strong performance budgets.
- Elevated the overall UI/UX, transforming static designs into dynamic, interactive experiences.

○ Web Developer

2018 – 2019

Self-Employed / Freelance

- Started professional career focused on modern web standards and client-side solutions.
- Delivered custom features and responsive builds for a range of clients with HTML, CSS and JavaScript.
